月が導く異世界道中
Around noon I fought some perverted spider that managed to get into this place.
— Let's just make sense of what happened..
at the end it bit me and started to suck my blood, and then I lost consciousness...
ズブ
Just wait here for a bit.
Are you going somewhere?
Thanks to you, I feel satisfied for the first time in my life.
うるっ
And now I wake up in the tent with a black haired beauty beside me.

Hello, This is my first as typesetter,
Hope u will enjoy this Chapter. Skylusion

原作：あずみ圭／漫画：木野コトラ

I thought I'd calm down by stepping outside for a bit.
The fog is even further away now...
and found that the special area had grown larger.
Since when was there a river passing through the orc village?!
It hasn't just grown, this place has outright changed!
just how unstable is this place?
Are they really sure they want to live here?
"Realm" isn't detecting Shin anywhere in here.
Can't help it then.
Welcome back.
Um . . . Could you explain what happened?

A few hours ago!
I've brought back the villager that's best with healing magic!
ばっ
Sir Makoto! Lady Shin!
Did that powerful mana just now belong to sir Makoto?
Strange things have been happening since then-
Sir Makoto!! How did this happen?!
Calm down, he isn't in danger anymore.
though there is still a problem.
It seems Master has no aptitude for recovery magic.
No aptitude?
Yes,
Amplifying his recovery ability did absolutely nothing.
...Lady Shin!
It's like watering land that has no seeds in it, nothing will grow.
You cannot amplify that which doesn't exist.

But I can share my own recovery ability with him,
so plating a seedling will work,
you just have to make sure it buds...
...
Gh.
You're granting him your own recovery ability?
That's an incredibly complex spell and requires careful regulation.
Indeed, it's exhausting most of my mana...
... I shall assist you to the best of my ability then.
フゥ...

Even humans rarely reach the level of skill this spell requires.
This highland orc— Ema is quite something...
Oh? ...
スヤ...
As an apology, I will at least
deal with all your wounds, Master.
Thank you for your work, lady Shin...
は！ は！
Likewise, thanks for your help.
Um... I've been meaning to ask you,
but that woman there...

No, I don't mean that.
" This body "?
.....
I simply couldn't help.
While my recovery ability is great, my memories are vague and I'm still not used to this body.
Me ?
I will wait until you are ready to explain.
... It seems there are some special circumstances here.
Mm . . .
And the one responsible for them...
It'd be troublesome explaining those wounds...
I need to explain the situation to him anyways.
That's right... I'll go with you.
Now then, I will go and assist in healing that other person.

... And that is what happened.
Very well.
I'll leave this place and Master to you.
Who are you anyways?
What do you mean you're not used to your body?
誰？
No, wait.
Oh, Ema really is great with magic...
now in this form because I formed a contract with you earlier, my lord.
Yes, I am

I was that spider.
that I couldn't hurt at all and was a total masochistic pervert...
the giant spider I fought earlier
A contract? Don't tell me
Hold on!?
Doesn't a contract require both parties to agree to it?!
Because of the contract giving me a human form,
I can now speak and eat normally.
... This world is forcing too many events onto me.
And everything is happening too fast!
My lord.
I shall devote all of my being to serving you.

...
For now, could you just stop calling me "my lord"? It feels weird...
And are Shin and Ema still together?
Shin is currently standing outside.
Huh?
She is. She wasn't there a while ago.
I'll put the futon away.
Can you call her over here then?
Yes, sire.
Sir?
Oh, you're finally awake, Master?

I was merely helping you form another contract.
しゅっ
What are you trying to pull?
Yeah, and I just learned that you made me form a contract while I was out.
Would you have preferred to be dragged around by her while she looked like a spider?
うっ
Thyaaa~♡
True. I wouldn't wanna be around that.
... Oh joy. I'm so happy to be blessed with such a great servant...
はぁ
That was sarcasm.
Realize it!
ぽっ
So happy ...
てんっ
You're exaggerating, Master!

Come in.
Oh, that s right
You went over to heal that other person, right?
Is he fine now?
Excuse me.
Oh right.
Shin brought him here with the spider
What is he surprised about
That s correct
A dwarf ?
He s short and stout and has a beard. Most fantasy stories call them.

You sure know a lot, Master.
Huh? Are dwarves that rare?
But this is no ordinary dwarf!
His race is ancient and responsible for creating famous relics and treasures,
earning them the prefix of "elder"!
I don't really get it, but it seems he's a pretty amazing dwarf.
Pleased to make your acquaintance. I am the elder dwarf Beren.
I am truly grateful for your help.
Huh?
Oh, I'm Misumi Makoto.

Yeah. that s what we call saving someone.
Huh? No, I merely carried him here before he could be eaten.
Uh, wasn Shuo the one that saved you, though?
you can just call me Makoto...
Defeated
And then you defeated the spider sir Makoto.
Thanks to madam Shin drawing the spider here our settlement was able to avoid the danger
How did it turn into some fairy-tale?
Eye contact.
What s this about a curse? This was because of the contract, wasn't it?
!?
With the curse lifted, that girl there was able to regain her original form.

むう
Sure, if we say that she chose to attack them herself
but they'll probably still hold this against her
what's with this plan?
Claiming it was all because of a curse, resolves the issue more easily
Since ancient times, that spider would appear to consume everything and then disappear
Given how many of our creatures were eaten,
we thank you for lifting the curse and ending this calamity
It's like you were their natural enemy!
You're admitting it?!
indeed, remember that
I'd like to switch topics now though
I have a request for you, sir Makoto, as the ruler of this land
What is it?

Would you allow us to live on this land?
ばっ
Sure.
We gathered our creations in the wasteland to hide them from thieves,
but the land is so harsh and dangerous that-
What?!
You'll accept us that readily?!
Well, there's plenty of land, and if you can get along with the orcs, then it'll be fine
Shun was probably gonna accept anyways.
Master..
B-But of course!
There will be conditions though!
You will lend your assistance in building a city here.
Huh?
offer us weapons and armor,
prepare to pay rent in the future,
and acknowledge my lord as your ruler

I have no objections to the terms.
A city? Now that's rather interesting.
She obviously thought it all out from the start.
That sure came out smoothly.
You will walk the path I carve for you.
Tell me when you're ready.
I will transfer your homes here.
I will need 2 days to convince my people and bring them here.
This is... A dragon's scale?!
Huh...
Hold on. I have a gift for you.
I shall go then.

A corrupt official and a business man.
Don't forget about the conditions.
No craftsman will refuse such high-class scales!
Indeed, not only did you identify his race, you are able to speak dwarven as well.
But you are truly impressive Master
Not at all, I merely wished to save him and to obtain weapons for us.
In fact, I bet you saved him purely for that reason.
Was that negotiation of yours all for the sake of getting a katana?
You are truly the ideal gentleman!
And your mana is just like nectar,
You were even able to speak with the orcs and you understood the spiders.
I guess I just needed to get used to it the first time did it
It shouldn't be that surprising to figure out his race.
So I really was speaking a different language. Though it didn't feel as weird as it did with Enna.
I am not happy to be seen as food.

Anyways, I have another request for Master
A name?
You already rejected everything I suggested.
And as your current name just fine?
But they were just too stylish.
Really?
I'll just call you spider or servant #2 for now then.
I can wait until after Shun, I am the newcomer after all.
Woah!
I must refuse!
Sire those are not acceptable names to give a lady!
In any case, I request that you immediately give me a proper name!
Can you stop calling me that already? It feels really weird!
Hey! We agreed that I would be the first to receive a name!
"Shun" is at least an androgynous name! "#2" isn't even a name!
I'll take back the part of letting you be his attendant!

Grr - That's..
How vexing.
Attendant?" Like one for the night?!
What a with this weird secret deal?! Im not going along with it
And who would want to be with her if they knew her true form?
Well, do suppose it a a bit mean to call you "servant #3"
Alright, I've got a good name for you.
Whaaaaat?!
My!
Just for my sake.
No no no no no no !
She should only get a name after me!
Don't throw a tantrum like a child!
Uncle
Jeez, fine!
I'll think of names for both of you!
So, I have to think of yours first?
Yes! Please give me a name that exudes strength

Of course...
Master, you are thinking of a name for me, right?
Um
Well?
Uh
Hmm
わくわく
Shin, your new name
will be "Tomoe"
It's nervous enough to cry about?
Why does the spider get a name first?
There was a female samurai?
Yep. It's from the name of the bravest female warrior I could think of.
Tomoe

I will accept the name Tomoe!
It suits me well. I like it.
henceforth I am Tomoe!
Hm?
Hey, it looks like you're growing
When you receive a name, you are also bestowed a power befitting that name,
as it is a sign of your bond with your master!
It bestows a power?
So isn't there a name that would give you a better power?
There certainly is. ♪
Then say so sooner! This is a pretty big deal
This is fine.
Rather than the power
I want for my name to be one that you thought fits me best

My, that is truly enviable ..
.. It is my turn now sire.
It's night time
It's fine ♪
Now then I shall go and tell everyone my new name
But
I am your servant.
I simply cannot address you so casually
Why not ?
I cannot
きぱっ
Just call me Misumi or Makoto ..
Before that I want you to stop calling me that.
It feels really weird.
If you say it like that .
Haaaah. ♡
I shall speak to Tomoe about it later
Haah! An order
Then talk to Tomoe and think of some way of addressing me other than "my lord"
That's an order
and "sire"
ﾊｧﾊｧ ﾊｧﾊｧ♡

Why?! Neither of you are making any sense!
Won't you get stronger with this?
I refuse.
Tell me what sort of rules there are about giving names.
So, about your name...
Kneeling for some reason.
Did you not think of a name already?
I wish for that name!
Huh? I'm sure I just heard her saying something unpleasant...
That fool, if only she'd kept her mouth shut.
If my name is going to affect your strength, then...
I cannot become any weaker than I am now,
so please grant me my name.
Don't get so close!
B-But what if it makes you weaker?
You're too close!
I wish for my new name to be something my master naturally thought of, not something intended purely to strengthen me.

... Up until now, she only suffered,
so this is a fresh start that will allow her to feel fulfilled.
!!
Then I'll give you your name.
If she says so ...
Your new name is "Mio"
Mio - - !
Back in my country, this name would be written with the character for zero and the character for water, my strongest elemental attribute.
Hm? Hey...
What's wrong?
... Hehehe, my name contains my master's element...
Hereafter I am Mio.
I humbly accept this name.

So this is my servant?
She's not even listening.
He~y.
That's not it.
Aaah...
Haaa!
Zero and my master's character? Does that mean
that I am to be dyed in my master's color?!
... Haah... I just woke up.
but I think I'll go back to sleep...
Better get the futon back out...
I'll see you tomorrow.
It's late.
Go over to where Tomoe is.
Aaah! My master's color!
Huh? Prepara~tions?
Master, the preparations are complete!

I Hope you enjoyed this Chapter,
